

Industrial & Commercial

Established in 1999, SPI's Industrial and Commercial division is dedicated to providing the services we have been renowned for since 1965 to a wider sector. Our vast experience ensures we continue to build a reputation for high quality service and expertise, coupled with a drive for continual improvement.

We undertake mechanical installations on behalf of local authorities and industry, including refurbishment to schools, office blocks and public buildings. We install complete heating, ventilation and air conditioning systems, as well as sophisticated controlled climate and energy saving systems, providing the following:

- **Plant room installations**
- **Chiller installations**
- **Water installations**
- **Extracting equipment**
- **Ducting and ventilations**
- **Industrial gas mains**
- **Welded pipework**
- **Maintenance contracts**
- **Emergency call-outs**
- **Reactive repairs**
- **Control specialists**

Skills

Employing service engineers, electricians, welders, pipe fitters, plumbers, air conditioning and refrigeration engineers, catering equipment engineers and swimming pool plant operatives, our broad range of skills offers an unrivalled service in all areas. Along with our building and joinery team we can provide the complete building management package.

About us

SPI are committed to employing local people wherever possible and operate a strict equal-opportunities policy. We also operate a training policy for continuous training of apprentices and existing staff, ensuring our resources remain updated, supplying a reliable and dependable service.

Best practice and best value are standard with all our services and nowhere is this more important than when supplying public sector organisations and local authorities. We

work in partnership with our clients, whatever the project. Our reputation for providing the highest quality mechanical installations and maintenance, with our record of customer care and site safety is coupled with that of our personal touch, guaranteed with a family business.
